*****Technical Data Sheet

Water Storage

A high performance, hard-wearing water storage tank, designed for either above or below ground use.

Tanks are UV-stabilised and

These tanks are ideal used as reservoirs being part of your private water supply system and can hold water either prior or after treatment. They have "flats" moulded to facilitate the fixing of plumbing fittings and an "in" and "out" NRV allowing air to balance when water is pumped in or drawn out.

Potential Uses

- Golf Courses
- Sports Grounds
- Farms
- Industrial Sites
- Garden Centres

Manufacturers reserve the right to change specifications without prior notice
